

Anglophone math teacher for Secondary

Website of the European School Lille Métropole : <http://ecole-europeenne.etab.ac-lille.fr/en>

Context

The European School Lille Métropole opened its doors on September 2, 2019. It is located at 91 Avenue du Dr. Calmette in Marcq-en-Baroeul in the Lille Metropolitan Area.

Accredited "type II" European schools are established in the Member States of the European Union. They offer multilingual and multicultural education to children in nursery, primary and secondary cycles. At the end of a specific syllabus, they deliver the European Baccalaureate diploma. Their pedagogical and educational setting complies with the requirements of the Board of Governors of the European Schools and the courses provided follow the programs of the European Schools. The European baccalaureate is recognized in all higher education institutions in the European community.

Students follow classes in the section that corresponds to their dominant language: French or English. At the start of the 2022 academic year, 10 levels will be open in each section (French and English): M1 (4 years old) and M2 (5 years old) for early childhood, P1 (6 years old), P2 (7 years old) and P3 (8 years old) and P4 (9 years old) in primary, S1 (11 years old), S2 (12 years old), S3 (13 years old) and S4 (14 years old) in secondary. Then, an additional level will be opened each year to cover education from nursery 1 to grade S7.

A chance to join an exciting new project in the early days of its life and to progress with the school as it grows and develops:

- Temporary buildings for the 2022-2023 academic year, then a move to the newly built facility.
- Continuous growth of the school for three years (constant reorganization of premises and functioning)
- Special requirements of the public: You will be part of a rich cultural blend of students and families
- As a French-hosted EU school, you will have the opportunity to experience several different educational influences (school management, National French Inspectorate, Inspection of European Schools).

Job specifics

Main missions

From S1 to S3, secondary students follow 4 weekly periods. In S4, they chose between core math (4 weekly periods) and advanced math (6 weekly periods). Each teaching period lasts 45 minutes. **The successful candidate will provide a full-time of 18 weekly hours made of 22 45-minute periods to Anglophone students.**

The candidate will have to adopt the professional gestures specific to European schools:

- Include the European dimension in the teaching program.
- Build and communicate the annual teaching plans.
- Participate in the harmonization policy, in particular the evaluation policy.
- Participate in the support policy, including in the primary cycle.
- Participate in the quality assurance policy, in particular through workshops, inspections by directors, class visits and cross-observations.
- Ensure effective communication with families, in particular providing a weekly parent meeting period.

- Build an annual educational development plan including specific training objectives, methods and actions. These training courses can take place in the school, the school district, a national setting or abroad.
- Get involved in the various educational actions between sections and educational cycles.
- Carry out cultural exchange projects with schools of the European Schools network.

Additional missions

- The successful candidate will take on the position of math coordinator for the whole school and will communicate effectively with the Math inspector for European Schools.
- The successful candidate will work in collaboration with his / her math colleagues in nursery, primary and secondary cycles.
- The successful candidate may have to fill the role of class teacher.
- Some additional periods of support or teacher replacement may be offered.

Compensation

- Net monthly salary between 1600€ and 2300€, depending on qualifications and experience.

Requires skills and qualifications

- The candidate must be a native English speaker.
- Higher education diploma in the subject area (math, applied math) and a teaching diploma for secondary education.
- The candidate must be able to communicate with the school community both in French and in English.
- Excellent teaching and pedagogical skills are required.
- Ability to teach special needs students and to implement positive reinforcement strategies.
- Open-mindedness, the ability to communicate, flexibility and tolerance are essential.
- A willingness and an ability to work in a team.
- A good command of the IT tool.
- The candidate must be able to teach in mixed classes where students have different levels of knowledge.
- The candidate must demonstrate a strong motivation to teach in a multicultural and multilingual environment.
- The candidate must demonstrate a spirit of collaboration with colleagues, management and families.
- A teaching experience in a European, international or bilingual school will be valued.

Contact and Procedure

The successful candidate will receive a one-year contract that can be renewed depending on job performance.

Those interested must send a motivation letter, a CV and all documents deemed useful for the study of the application to *Madame La Directrice de l'Ecole Européenne Lille Métropole* at eelm@ac-lille.fr.
