

## SUPPLIES LIST ART EDUCATION

\* Art supplies vary each year in art education. Specialized back-to-school kits can be found in stores like Cultura and Rougier & plé, but you can also purchase the supplies individually. Stores like Action offer enticing promotions as well. Alternatively, you can order from Amazon. I recommend parents to coordinate and place group orders, as it offers numerous benefits and ensures we have non-toxic products. Art supplies do make school bags heavier as they are kept in the students' drawer inside the art room all year long.
